

Quality SmallCap Fund

Class I: WHGSX | Class A: WHGAX | Class C: WHGCX | Class Ultra: WWSYX

Data as of March 31, 2024

Investment Objective

The Westwood Quality SmallCap Fund's investment objective is to seek long-term capital appreciation.

Fund Overview

We invest at the intersection of quality and value which we believe can generate a return premium resulting in lower absolute downside risk and greater risk-adjusted returns.

- Focusing on high-quality businesses with strong balance sheets, strong free cash flow and the potential for attractive future returns.
- Prioritizing the quantitative assessment of absolute downside risk to mitigate against loss of capital.
- Pure small-cap portfolio; the investment universe generally includes companies with market capitalizations between \$500 million and \$4 billion at purchase.
- High-conviction, fundamental bottom-up security selection process investing in typically 50-70 holdings.

Investment Team

| Name | Industry | Firm Tenure |
|-----------------------|----------|-------------|
| William Costello, CFA | 1987 | 2010 |
| Matthew Lockridge | 2001 | 2010 |
| Fred Rowsey, CFA | 2009 | 2010 |

Annualized Rolling 5-Year Returns Net of Fees Since Inception

Westwood Quality SmallCap (WHGSX) vs. Russell 2000 Value Index

Fund Facts

| | |
|------------------------------|--------------------|
| Fund Symbol | WHGSX |
| CUSIP | 90386K407 |
| Fiscal Year End | October 31 |
| Inception Date | April 2, 2007 |
| Benchmark | Russell 2000 Value |
| Expense Ratio (Net/Gross) | 0.92% / 1.05% |
| Fund AUM (all share classes) | \$1.3 B |

The Advisor has contractually agreed to waive fees and reimburse expenses until March 1, 2025. In the absence of current fee waivers, total return and yield would be reduced.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost, and current performance may be higher or lower than the performance quoted. For performance data current to the most recent month end, please call 877.FUND.WHG. High short-term performance of the fund is unusual, and investors should not expect such performance to be repeated.

Potential Risks

Mutual fund investing involves risk, including possible loss of principal. There can be no assurance that the Fund will achieve its stated objectives. There are specific risks inherent in small cap investing such as greater share price volatility as compared to other funds that invest in stocks of companies with larger and potentially more stable market capitalizations.

The performance data quoted represents past performance. Past performance does not guarantee future results. The investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost, and current performance may be higher or lower than the performance quoted. For performance data current to the most recent month end, please call 877.FUND.WHG. To determine if this Fund is an appropriate investment for you, carefully consider the Fund's investment objectives, risk factors, charges and expenses before investing. This and other information can be found in the Fund's summary and full prospectuses, which may be obtained by calling 877.FUND.WHG, or by visiting our website at westwoodfunds.com. Read the prospectus carefully before investing or sending money.

Standard deviation is the statistical measure of historical volatility, a measure of the extent to which numbers are spread around their average. Upside and downside capture measures how a fund has historically performed relative to its broad market benchmark during times of market strength – or positive returns – and weakness – or negative returns. Alpha is the measure of risk-adjusted performance. Beta is the measure of risk in relation to the market or benchmark. R-Squared is the measure of how closely a portfolio's performance correlates with the performance of a benchmark. Tracking Error is the amount by which the performance of the portfolio differs from the benchmark. Sharpe Ratio is the measure of the excess return (risk premium) per unit of risk in an investment. P/E ratio is price-per-share divided by its earnings-per-share. Forward P/E is a measure of the P/E ratio using forecasted earnings for the P/E calculation. The Russell 2000® Index measures the performance of the 2,000 smallest companies in the Russell 3000® Index, which represents approximately 8% of the total market capitalization of the Russell 3000® Index. The Russell 2000® Value Index measures the performance of those Russell 2000® companies with lower price-to-book ratios and lower forecasted growth values. The Benchmark Indices' returns do not reflect any management fees, transaction costs or expenses. Investors cannot invest directly in an index.

The Westwood Funds are distributed by Ultimus Fund Distributors, LLC. (Member FINRA) Ultimus Fund Distributors and Westwood Funds (or Westwood Holdings Group, Inc.) are separate and unaffiliated.
